

AFFIDAVIT of Crosby Taylor

I, Crosby Taylor, do depose and state:

1. In early May of 2020, my wife Amanda received a call from a representative of the Department of Revenue who we have work with in the past on sales tax issues. He called on his personal phone after hours to tell us that our account had been deactivated and we could not purchase liquor from them. When Amanda called the liquor division, they said they had no idea what had happened to our account and referred us to Dan Noble who is the director of the Department of Revenue.
2. After reaching out to the department of revenue we received a letter from Director Noble stating that we were delinquent on our sales tax and that we could no longer purchase liquor. The letter also stated that we must follow state health orders if we wanted our liquor privileges back.
3. Upon receiving the notice from Noble, I called Senator Kinskey and asked if he could intervene on our behalf. Senator Kinskey asked for copies of our sale tax records to prove that we were not delinquent, and that the department of revenue had not followed their own rules for dealing with delinquent sales tax issues in relation to liquor sales.
4. Senator Kinskey emailed director Noble. I then received a follow up email stating that he, Director Noble, had acted at the direction of the governor's office. Worse yet, the email response makes it clear that it is because I choose to exercise my right to express myself regarding the current situation and my feelings about Governor Gordon, both Director Noble and the governor are using the very unlawful so-called emergency to violate my freedom of expression rights. This threat continues as I worry daily from which direction and what excuse the governor and his gang will use to attack both myself and my business.
